CR-3 Combination Rack

Thank you for purchasing a TrimmerTrap product. The CR-3 can be used to help organize and protect your hedge trimmers, handheld blowers and chainsaws.

The rack must be attached to a component on the truck or trailer adequate to support the loaded rack. Attach with a minimum of three 3/8" grade 5 bolts and lock nuts. Any tool installed in the rack must be secured in place before transit. The heavy-duty stretch cord included can be used for this purpose. A short section of chain or cable inserted through the side slots and padlock can be used to lock the tool in the rack. A bicycle lock works well for this purpose.

WARRANTY: 90 days against defects in material and workmanship, TrimmerTrap, Inc. reserves the right to repair or replace at its sole discretion the alleged defective TrimmerTrap product. Determination of validity of alleged defect claim will be made upon goods returned to us freight prepaid to our location in Louisville, KY. Call 1-800-279-8727 for a return goods authorization.
